DRAFT · NOT YET APPROVED FOR SENDING

UNLOCK SERVICES LIMITED

The founding round.

A written summary of your call with Tom King, to read in your own time.

THE CUSTOMER

What has changed for self-directed UK investors.

Unlock is for High Net Worth and self-certified sophisticated investors who stay responsible for their own financial decisions.

£13.6T	7.9M	1 in 11	15.8M
Privately owned wealth in Great Britain	UK investment platform users	Adults with £250K+ in investible assets hold unlisted shares	UK adults who may need support had no regulated advice last year

Fragmentation

Investors pay a fragmentation penalty. Their wealth is spread across platforms, wrappers, advisers and assets held directly, with no single view.

Cost of advice

Professional advice on the big decisions is expensive: inheritance tax planning on a £1M estate averages £8,995, and at-retirement advice on a £500K pension £6,700.

Rules keep changing

From April 2026 business relief is capped at £2.5M per person, and from April 2027 pensions come into inheritance tax. More households need to plan.

Sources. £13.6T: ONS, FOI-2025-2713, 16 April 2025. Advice fees: Unbiased.co.uk, customer research February 2026, average one-off fees. 7.9M: FCA, Financial Lives 2024 (adults using an investment platform). 1 in 11: FCA, Financial Lives 2024

(9% of adults with £250K+ in investible assets hold unlisted shares). 15.8M (29% of UK adults): FCA Financial Lives 2024, financial advice and support, slide 35. SOURCES TO CONFIRM

THE PRODUCT

What Unlock does.

A live view of all your assets: regulated investments such as stocks, pensions and bonds, and unregulated ones such as property, gold and crypto. Unlock tells you when something changes, and helps you think the decision through. The decision stays yours.

Asset register

Everything you own in one place, with the evidence behind it: pensions, investments, property, cash and the harder-to-value things.

Alerts

A holding rises or falls, a pension rule changes, cash builds up. Unlock tells you straight away, and only about changes that matter to your plan.

Retirement income planner

What income your assets could provide over time, with past market crashes such as 2008 replayed against the plan.

EIS modeller

What investing in EIS companies each year might look like over 15 to 25 years, including loss relief and realistic failure rates.

Due Diligence tool

A company's claims checked against the evidence, the risks and the open questions. An absence of red flags, never a green light.

Heartbeat

If you don't log in for a set period, Unlock contacts someone you have chosen in advance, so the people closest to you can find your financial picture.

Unlock operates outside the FCA perimeter by design. What we provide is structured decision support, not regulated financial advice. It does not manage assets, sell products or execute transactions.

Where the product is today.

Every tool you saw in the demo is built and available to founding investors to test, using sample data. This round funds the production version, which investors use with their own figures.

Asset register	FOUNDING INVESTORS ONLY	Available to test, with sample data
Retirement income planner	FOUNDING INVESTORS ONLY	Available to test, with sample data
EIS modeller	FOUNDING INVESTORS ONLY	Available to test, with sample data
Due Diligence tool	FOUNDING INVESTORS ONLY	Available to test, with sample data
Heartbeat and alerts	FOUNDING INVESTORS ONLY	STATUS TO CONFIRM

WHAT THE ROUND PAYS FOR

35% of the round, £420K, goes to the product and AI engine: taking the four tools to a production build, the AI interpretation engine, and the security, hosting and compliance infrastructure needed for investors' own data.

This round funds the production build.

SHAPED BY INVESTORS

Several features, including Heartbeat, came directly from founding investors' requests.

EVIDENCE

Evidence so far.

Founding investors

Founding investors come in at £6.5M pre-money. The first external investment was at a £10M valuation (April 2025).

Research

40+ market interviews. In Unlock's own research, 70% of surveyed investors said they would pay for better portfolio tools.

What the next stage has to prove

WORDING TO CONFIRM

That founding investors use Unlock regularly with their own figures, and that investors reached through Unlock's own data subscribe and stay.

December 2025 test

1,000	8%	3	2
investors contacted	asked for a report	wanted to subscribe	joined the waiting list

About 3 subscribers per 1,000 contacted. A test result, not a forecast.

BUSINESS MODEL

A subscription that earns its place every month.

Paid by the investor. No commission, no asset fees and no transaction charges, so the only way Unlock grows is by being useful.

Standard

£99 a month

The full platform: asset register, alerts and the planning tools. WHAT'S INCLUDED TO CONFIRM

White Glove

£299 a month

Everything in Standard, plus personal onboarding and support.

WHAT'S INCLUDED TO CONFIRM

Projected payback on acquiring a subscriber is about 8 months at steady state. A projection, not a forecast. Founding investor benefits are on their own terms, separate from their shares.

GROWTH PLAN

A staged route to market. MILESTONES TO CONFIRM

Each stage opens only when the one before shows that people reach Unlock, use it, pay and stay.

STAGE 1

Founding investors

The product shaped with the people backing the company.

Opens stage 2: regular use and feedback from founding investors.

STAGE 2

Owned data

30,000 UK high-net-worth investors from 12 years of investor-introduction work. Founder-led calls and demos.

Opens stage 3: paying subscribers from this list.

STAGE 3

Earned and lookalike data

600,000 lookalike profiles and 1.6M audited records. Content and referrals.

Opens stage 4: conversion that holds at scale.

STAGE 4

Marketing and partners

Google and Meta, then accountant and IFA partnerships and white-label licensing.

Working case: 6,416 paying subscribers by Year 5. This is a projection under review, not a forecast, and actual results may differ materially. WERNER CHECKING MODEL

TEAM

The people building Unlock.

COMMERCIAL STRATEGY ADVISER

Set up Barclays Stockbrokers; former Chairman of Barclays Trust Bank. Former Director General of TISA. Founding investor.

FI

Founding investors

STRATEGIC PARTNERS

Investors who test the product, bring their own questions and help decide what Unlock builds next.

THE ROUND

The founding round.

£6.5M	£1.2M
Pre-money valuation	Round size, planned as the only external capital needed before profitability

Founding share price	A discount for every founding investor, on a structure based on the amount invested
Valuation context	The first external investment was at a £10M valuation (April 2025)
SEIS and EIS	Unlock Services Limited has HMRC advance assurance for SEIS and EIS (May 2025)

Use of funds

35% Product & AI engine — £420K

32% Go-to-market & sales — £380K

21% Team & operations — £250K

12% Working capital buffer — £150K

The risks, in the same view

For the company

People may not adopt it or pay at the rate planned; the build may take longer or cost more; a small team depends on key people; more capital may be needed; rules and the market may change.

For you

You could lose all the money you invest. Shares in a private company are hard to sell, and any return may take many years or never come. Tax relief depends on your circumstances and the company continuing to qualify.

Possible routes to a return, none guaranteed: secondary sales, a strategic acquisition, dividends, or a listing in the longer term.

> Do not invest money you cannot afford to lose.

NEXT STEP

Your next step.

DONE	Intro call
DONE	Demo (15 minutes)
DONE	Company call (45 minutes)
NEXT	**Deal structure call (30 minutes)** Tom covers the exit strategy, valuation, risks, the share price, your rights and how SeedLegals handles the documents and process. Only if you ask for one. Not another pitch, a commitment or personal advice.
THEN	**Your decision** In your own time.

To book the deal structure call, reply to Tom or email tom@unlockdd.com

IMPORTANT INFORMATION

- Unlock operates outside the FCA perimeter by design. What we provide is structured decision support, not regulated financial advice.
- This summary is not an offer of shares and is not advice.
- Investing in an early-stage company is high risk: you could lose all the money you invest, shares are hard to sell, and any return may take many years or never come.
- Tax relief depends on individual circumstances and the company continuing to qualify, and rules can change.
- Projections are illustrative, not forecasts.
- The investment documents govern the terms of any investment and any founding investor benefits.
- Consider taking independent financial, tax and legal advice.
